

CLINTON PUBLIC SCHOOLS

1:1 Student Chromebook Agreement

Clinton Public Schools believes that technology resources are a tremendous source of information that provides countless opportunities for students and staff in the District. Annual technology expenditures are appropriated district-wide to enhance student learning. The 1:1 initiative for students will create an enriched, collaborative learning environment. The purpose of this initiative is to continue our implementation of rigorous, relevant learning, while providing students with constant access to the latest educational resources. Students in grades 1 through 6 will have a Chromebook available to them through a cart based system in the school. The Chromebook will not be allowed to travel with the student to and from home and will remain in the school at all times. If there is a need for the student to have the Chromebook available to them at home, a request should be made to the student's teacher.

Distribution of Chromebooks

Students will be assigned their Chromebook at the beginning of each school year. Before a student is issued a Chromebook, the following steps must occur:

- Students and parents must read and agree to all policies and procedures for use, care and maintenance of the Chromebook.
- Students and parents must read Clinton Public Schools Acceptable Use Policy on file.

Device Labels

All Chromebooks will be labeled with the student's name and barcoded District asset tag. Labels may not be removed, modified or tampered with in any way. There will also be a number on the front of the Chromebook that corresponds with the cart and slot the Chromebook will be available in.

Taking Care of Your Chromebook

Each student is responsible for the general care of the Chromebook that he/she was issued by the school. Chromebooks that are broken or fail to work properly must be taken to the technology office as soon as possible.

Operating System and Software

The Chromebook operating system, Chrome OS, updates itself automatically and is managed by the district.

Google Apps for Education

- Chromebooks seamlessly integrate with the Google Apps for Education suite of tools. This suite includes Google Docs, Spreadsheets, Presentations, Drawings and Forms.
- Work within these apps are stored via Google Drive in the cloud.
- Student accounts are issued and maintained through Clinton Public School's Google domain.

Additional Apps and Extensions

- Only web apps and extensions approved by the school or district will be available to download.
- Students should be aware that the addition of apps and extensions can impact the speed and performance of a Chromebook.

Content Filter

The District utilizes an Internet content filter that is in compliance with the federally mandated Children's Internet Protection Act (CIPA). All Chromebooks, within the School District network, will have all internet activity monitored by the District.

Repairing/Replacing of Chromebooks

All Chromebooks in need of repair must be brought to the technology office as soon as possible. Technology staff will examine the Chromebook and take the appropriate steps to repair the device. All repairs must be performed or authorized by the district technology staff.

No Expectation of Privacy

Students have no expectation of confidentiality or privacy with respect to any usage of a Chromebook, regardless of whether that use is for District-related or personal purposes, other than as specifically provided by law. The District may, without prior notice or consent, log, supervise, access, view, monitor, and record use of student Chromebooks at any time for any reason related to the operation of the District. By using a Chromebook, students agree to such access, monitoring, and recording of their use.

CLINTON PUBLIC SCHOOLS

1:1 Student Chromebook Agreement

Appropriate Uses and Digital Citizenship

School-issued Chromebooks should be used for educational purposes and students are to adhere to the technology guidelines within the Student Handbook signed at the start of the school year and all of its corresponding administrative procedures at all times. Students in violation of these guidelines or other procedures in this manual will be subject to disciplinary actions. Students who do not adhere to these policies could have his/her Chromebook confiscated and network privileges at school disabled.

Estimated Repair Costs (subject to change)

All accidental damage will be covered at no cost to the student. Any Chromebook that is deemed non-accidental (malicious intent to cause damage) will be charged the full amount (\$225) for a replacement. All Chromebook issues not related to damage (bad battery, screen, touch pad) will also be covered.

Student Agreement

Student Name: _____ (Please Print) School: _____

Grade Level: _____

I have read the 1:1 Student Chromebook Agreement. I agree to follow the rules contained in this Agreement. I understand that if I violate the rules my account privileges can be reduced and I may face other disciplinary measures.

Student Signature: _____ Date: _____

Parent Name: _____ (Please Print)

Parent Signature: _____ Date: _____
